## Itinerary Pozar baths and edessa from thessaloniki

At around 08:00 AM, you will start your **trip to Pozar**.

One explanation regarding the meaning of the name "Pozar" is "after the charcoal", while another would be "under the fire". In the past, the village was located in a different place that was burned or caught fire, so the villagers named "Pozar" their new settlement.

You will arrive at the lovely **hot springs of Pozar**, a spa in nature. The healing water permeates the soil and, after reaching a certain depth, it is heated up and returns to the surface enriched with minerals and other valuable elements.

You will admire the beautiful gorge located in the majestic mountain where the "Toplitsa" river (in Slavic language is defined as "the hot river") flows through, forming small waterfalls and shallow shores. Today it is mainly known as the River of Saint Nicolas.

You will have free time to enjoy a nice cup of coffee while benefiting from the healing qualities of water by relaxing in the natural pools of the hot springs. Remember to bring a swimsuit and a towel!

Here, you will also have the opportunity to taste the traditional delicacies of local producers (honey, spoon sweets, etc.) from the local market. Then you will continue your **trip to Edessa**.

The name Edessa means "tower into the water" due to the intense presence of this natural element in the city since ancient times. You will have free time to admire the cascading waterfalls and immerse yourself in the enchanting landscape. The water that constantly supplies cataracts falls from the springs of the Kaimaktsalan mountain.

Here, you can join your local guide on a walking tour of the old district and visit the Water Museum or Sesame Mills for an unforgettable experience or enjoy a nice meal in one of the traditional restaurants.

At the end of your visit, at about 4:30 PM, and after lunch, you will return to Thessaloniki.

**Greca Tip:** Apart from the curative qualities of the water, make sure you try Xinomavro, the famous red wine with a bright red color.
